NUCLEAR PHYSICS Electronic

An experimental electronic facility connected to
Nuclear Physics A *and* **Nuclear Physics B**

NUCLEAR PHYSICS ELECTRONIC is a service to the subscribers of Nuclear Physics, which allows for:

- *retrieval of full-text information*
- *on-line index-searching*
- *browsing*

On-line searching and browsing are freely available to all users, while retrieval of full-text information is limited to network addresses which can be linked to subscriptions to **Nuclear Physics A** or **Nuclear Physics B.**

Access to Nuclear Physics Electronic is via the World Wide Web, *http://www.nucphys.nl (direct)* or via the Elsevier Science Home Page *http://www.elsevier.nl.*

Access to abstracts and full text papers is made available exclusively to readers working at institutes which have a subscription to Nuclear Physics.

NUCLEAR PHYSICS ELECTRONiC provides the following features:

- Access to full text papers from the moment these have been accepted for publication by Nuclear Physics A or Nuclear Physics B. Initially, *Nuclear Physics Electronic* will provide the full text of only those papers which have been submitted to the journals in electronic format. These will remain available for 6 months after final publication.
- Lists of those papers accepted for publication in Nuclear Physics A and Nuclear Physics B. These lists will give a concise overview of all papers, to appear in print *in either journal* within the next 3 to 4 months.
- Access to the abstracts of all papers that are about to be published, or that have been published in Nuclear Physics A and/or Nuclear Physics B.

Nuclear Physics Electronic is provided - at no extra cost - as part of the subscription to Nuclear Physics A and Nuclear Physics B.
